

PRODUCT INFORMATION

EFFECTIVE

ECONOMICAL

EASY

LONG LASTING

- Suitable for use with a 5-6kg washing machine.
- This product cannot be used to dye wool, polyester, acrylic, nylon or specially treated fabrics (e.g. which require dry cleaning, are waterproof, etc.).
- Dyeing cannot cover stains, faded areas or bleach marks.
- You will get dark tones from cotton, linen and viscose.
- You will get lighter shades from mixes of polyester/viscose (be aware of mixing colours).
- This product does not dye polyester stitching.
- Always read the label and be aware of the colour of your clothes before dyeing, e.g. blue on red turns purple, blue on yellow turns green.

- After dyeing clothes, wash them either separately or with similar colours at least twice to get rid of any excess dye.
- Only wash dark clothes in your machine the first time after using it to dye clothes.
- Do not use more than 5 sachets of dye at a time. You are advised to dilute the dye with hot water before putting it in the drum..
- Do not add any extra salt to the dye.
- To ensure clothes are dyed evenly, do not load the washing machine more than half full when dyeing.

We cannot be held liable for any damage caused by using this product improperly.
